UNI-Clean 350

High efficiency cleaner for fat and oil

UNI-Clean 350 is a cleaner based on high-purity hydrocarbons. It is suitable for all metallic surfaces. Due to the extremely slow drying, the cleaner leaves a light film on the surface, which causes short-term corrosion protection.

Technical Data	
Density (g/cm ³) at 20 °C	0,75 – 0,80
Surface tension (mN/m) at 25 °C	< 40
Boiling range (°C)	> 240
Flash point (°C)	105
pH-value (10 g / l H ₂ O)	not applicable
Vapor pressure (mbar) at 20 °C	< 1,0
Application temperature (°C)	20-75
Self ignition (°C)	> 200
Solubility in water (%)	not soluble
Application concentration (%)	100
Biodegradability	yes

Application Areas			
Removes:			
Polishing paste	+	Plastics	-
Coolant	o	Glues / Adhesives	-
Mold release agent	+	Paints / Coatings	-
Oil + Fat	++	General dirt	++

Processes			
Dip cleaning	++	Spray in air	++
Ultrasonic	++	Manual by hand	++

++ very recommended	+ recommended	o possible, but not recommended	- not recommended
---------------------	---------------	---------------------------------	-------------------

General information
Free of halogenated and aromatic compounds
No dangerous goods
Shelf life in sealed containers: > 3 years
Free of water and emulsifiers
No general corrosive effect on standard base materials
Very good degreasing power
Product will be sent as ready-to-use solution.
Nearly odorless
