

## Separation- and flocculating agents

### Reaction release agent for separating paint, dispersion, and flexographic printing wastewater

Product	Property	Application	Delivery form
<b>ZetaPol 1175-FD</b>	<ul style="list-style-type: none"> <li>• high performance product</li> <li>• strong flocculation</li> <li>• achieves clear water phase</li> <li>• perfect sludge filtration</li> <li>• especially for resist wastewater</li> </ul>	<ul style="list-style-type: none"> <li>• clearance of turbidity</li> <li>• for emulsion splitting</li> <li>• improves flakes</li> <li>• achieves brilliant water phase</li> </ul>	<ul style="list-style-type: none"> <li>• Bags with 10 kg net</li> <li>• Pallet with 600 kg net</li> <li>• BigBags with 800 kg net</li> </ul>
<b>ZetaPol 1175-Clear</b>	<ul style="list-style-type: none"> <li>• high performance product</li> <li>• strong flocculation</li> <li>• achieves clear water phase</li> <li>• perfect sludge filtration</li> <li>• especially by cleaners</li> </ul>	<ul style="list-style-type: none"> <li>• clearance of turbidity</li> <li>• for emulsion splitting</li> <li>• improves flakes</li> <li>• achieves brilliant water phase</li> <li>• multi purpose application</li> </ul>	<ul style="list-style-type: none"> <li>• Bags with 10 kg net</li> <li>• Pallet with 600 kg net</li> <li>• BigBags with 800 kg net</li> </ul>
<b>ZetaPol 1175-A</b>	<ul style="list-style-type: none"> <li>• high performance product</li> <li>• achieves clear water phase</li> <li>• perfect sludge dewatering</li> <li>• high organic adsorption</li> <li>• Activated Carbon</li> </ul>	<ul style="list-style-type: none"> <li>• clearance of turbidity</li> <li>• for emulsion splitting</li> <li>• improves flakes</li> <li>• Reduction of AOX, FOCL, COD, TOC</li> <li>• Removes discoloration</li> </ul>	<ul style="list-style-type: none"> <li>• Bags with 10 kg net</li> <li>• Pallet with 600 kg net</li> <li>• BigBags with 800 kg net</li> </ul>
<b>ZetaPol 1113-Clear</b>	<ul style="list-style-type: none"> <li>• Special products for dispersion glues</li> <li>• strong flocculation</li> <li>• high splitting- and flocculation properties</li> <li>• multi purpose application</li> </ul>	<ul style="list-style-type: none"> <li>• clearance of turbidity</li> <li>• for emulsion/dispersion splitting</li> <li>• improves flakes</li> <li>• achieves brilliant water phase</li> </ul>	<ul style="list-style-type: none"> <li>• Bags with 10 kg net</li> <li>• Pallet with 600 kg net</li> <li>• BigBags with 800 kg net</li> </ul>
